WATER LEAK ADJUSTMENT

Ordinance 2196

5-123. Water Leak Adjustments.

The City shall hold the customer liable for all water registered on said customer's meter and shall not make any adjustment onto customer's account for leaks or other reasons, which would alter the registered gallonage on said meter. However, when a leak is a concealed leak, there may be one (1) adjustment made in favor of the customer per year on the following basis: the customer must present proof that the leak was repaired and the bill will be then adjusted to an amount that is the equivalent of the three-month average monthly bill immediately preceding the leak, plus ten percent (10%).
